

## Cosmetic Breast Revision Surgery in Houston

At [private client], Board-certified surgeons [private client] and [private client] have years of experience performing all kinds of cosmetic procedures and plastic surgery. In addition to utilizing breast implants, breast enhancement, and reconstructive surgical techniques, the specialists at [private client] also perform cosmetic breast revision surgery.

[private client] and [private client] are the top choice among Houstonians seeking corrective surgery for a botched breast augmentation surgery or those now deformed as the result of a previous breast procedure. Our doctors have treated many patients who need special care following an initial plastic surgery that may have left them feeling disappointed with their results and wary of undergoing further procedures.

If you are unsatisfied with the results of your previous breast surgery and are considering undergoing a cosmetic breast revision procedure, let the doctors at [private client] help you finally achieve the dramatic results you've been looking for. [private client] will assess your current condition, review all of your possible options, and go over the details of your surgery with you during your initial consultation.

### **[Private Client] – Friendly, Professional Care**

Surgeons and staff at our [private client location] facility are committed to providing not only high-quality results that you can be proud of but also a patient experience that exceeds all expectations. If you feel cosmetic breast revision surgery may be in your future, contact [private client] today and speak with one of our specialists to learn more about this or the other specialty procedures we offer at our state-of-the-art medical practice.

## Regenlite for Acne and Acne Scars

Are you suffering from severe acne or embarrassed by major acne scars? In addition to reducing fine lines and tightening and toning the skin, Regenlite Laser Treatment can be an effective cosmetic treatment to minimize acne and help put an end to your acne scars. As an alternative to invasive plastic surgery, the Regenlite laser procedure is performed by qualified Houston plastic and reconstructive specialists in a medspa setting in our Houston-area practice. Here, our experienced team has helped many patients virtually eliminate the effects of unsightly acne on the face and body.

If you are looking for a permanent solution to your acne or acne scars that does not involve major surgery or needle-injected treatments, this Regenlite laser procedure may be the answer you are looking for. Using smart-pulse technology to apply low-level laser frequencies to the skin, Regenlite is virtually painless and causes only a minor tingling or tickling sensation in most patients.

After an extensive consultation with our expert Board-certified plastic surgeons [private client] and [private client], you may opt to try a single laser treatment and test its effectiveness on your acne or acne scars. Depending on the severity of your acne as well as your aesthetic goals, your plastic surgery specialist will determine which level of laser power is suitable for your skin,

and use the Regenlite treatment on that particular setting, or 'mode.' Patients looking to reduce or eliminate existing acne breakouts have reported dramatic results after undergoing multiple Regenlite treatments on a low-laser mode.

### **How Can Regenlite Laser Treatment Help Me?**

Typically, patients visiting our [private client] practice for Regenlite Laser Treatment for acne or acne scars will see noticeable results after minimal office visits. The power and effectiveness of just a few treatments with Regenlite usually eliminate the need for a regular weekly appointment, though some with extremely severe scarring may require additional treatments to achieve the results they seek. To explore this or any of our laser treatment options, please contact [private client] at [client contact] to learn more.
